Mtg w/ GE - Patricia Barmeyer, Chet Tisdale, Jane Gardner
Kirk McFarlane, Trey Paris,

SITE: GE Rome

BREAK: 20:5

OTHER: V. 401

Jane spoke - 9 issues - ① Permit shield -

- ① 93 ~~The permittee should comply w/~~ - Take out last sentence in number 3.
- ② 94 "take out "other applicable federal law"
- ③ - Approval of Phase 4 WP w/in this permit mod. - III D. (1)(b)
GE wants Phase 4 approved w/in the permit instead of having it approved separate
- ④ III D. 4a. ii - GE wants to use "leaching to GW value" instead of "soil cleanup values"
GE wants to take out "soil cleanup" - and other changes were made
- ⑤ Balancing Criteria
→ what is the AMPR → Strike "when considering p. 15 - 16"
- ⑥ Sequence of Events of implementation - Lester wants to start at Muller & end at Walmart.
pages 16 & 17
- ⑦ Fence
- ⑧ Dispute Resolution
- ⑨ TMDL - GE cannot get the RCRA permit done until the TMDL is resolved.

Review of Phase 4 WP

The Phase 4 RFI - not a part of the permit mod. -> Not public noticed ->

mid May → mid November
6 month access

III.D.4.a.iii. Off-site Soil and Sediment below the Groundwater Table

Permittee shall calculate a site-specific soil cleanup ^{values} level to be protective of groundwater impacted by leaching of contaminants from soil/sediment and protective of human health and ecological concerns for those properties as described in the CPCAP. ~~The~~ ^{values} may be considered by the Director in determining the need for further investigative actions and/or the need for corrective action pursuant to Section III.D.5 below, including what general remediation approach(es) (e.g., containment, excavation or extraction, treatment, etc.) may be necessary to address any contamination remaining below the water table.

soil cleanup

That was a good move!
by EPD b/c BE can't hold the
permit hostage.
